WINDOWS CE SYSTEM
HANDHELD COMPUTER

Industrial Handheld Computer C3000

Chainway's C3000 is a WinCE-based rugged mobile computer, featuring a powerful 800MHz processor, high ruggedness and durability, and best in class battery performance.

It can be integrated with a variety of data capture functions including high-performance RFID reading, best-in-class barcode scanning and fingerprint recognition etc. Its excellent configuration, rich functions and outstanding ability of handling data meet the demands of almost all industries.

Portable, reliable and flexible,
C3000 helps enterprises reach the internet of intelligences

WinCE OS

C3000 integrates with Windows CE 6.0 operating system. The system is stable, secure and easy to use.

High Performance Processor

With powerful and fast dual-core 800MHz processor, 256MB of RAM, 4GB build-in flash storage, plus a SD card slot that can add up to 32GB of memory, C3000 gives you smooth and efficient user experience.

Uninterrupted Wireless Connectivity

Flexible connectivity options, including 3G, Bluetooth and Wi-Fi, ensure that users always have the best network connection. They can check and transmit real-time data anytime and anywhere.

Rugged and Durable

C3000, built for use in harsh industrial and outdoors environments, is IP65 sealed to withstand prolonged exposure to water, dust, -10/50°C temperatures, and multiple falls on all 6 faces from 1.5 meters to cemented ground.

Dual batteries

C3000 is equipped with a rechargeable lithium battery of 3200mAh and supports an optional pistol battery of 5200mAh, making the total battery capacity up to 8400mAh. Prolonged standby time meets the need of all day work without recharging and the pistol grip provides superior user comfort.

LF/HF RFID

C3000 can be configured with high-performance LF or HF RFID reading/ writing module. The module and software can be customized according to industry needs and tag specifications.

UHF RFID

The C3000UHF provides new levels of UHF RFID reading performance. It can be configured with class-leading R2000 UHF module or cost-effective UHF module, together with two kinds of high performance antenna options.

Fingerprint Recognition

C3000 enables sensitive fingerprint recognition. Capacitive fingerprint sensor makes the collection of fingerprint information more accurate and rapid. Users can input or delete fingerprint information, process fingerprint image, and match fingerprints. It has been widely used in personnel management.

GPS

C3000 integrates accurate Global Positioning System that provides detailed location information anytime and anywhere, playing an important role in the field of modern logistics and transport, fleet tracking and asset tracking, etc.

Abundant Optional Accessories

There are lots of accessories for you to choose from: A/C adaptor, charging cradle, multiple extension ports, pistol grip with additional built-in battery, all to enable you to take full advantage of C3000's powerful data processing capacities.
