

-  Android operating system
-  4-inch high-resolution display
-  Real-time wireless communication
-  Quad-core processor
-  Comprehensive RFID reading & writing
-  Dual-battery design

Too fast & smart to be ordinary

In this world of hustle and bustle, fast and smart C4050 brings you creativity and vigor. Its high performance and rich functions will make your daily work extraordinary.

C4050 features the latest Android operating system, ultra-fast 4G network and dual-band WiFi, best possible battery performance, and comprehensive data capture options including LF/HF/UHF RFID and NFC reading, high performance 1D/2D barcode, infrared and fingerprint scanning etc. With such high speed & efficiency, C4050 will never let you down.

ANDROID SYSTEM HANDHELD COMPUTER

Android OS
C4050 integrates with Android operating system, delivers familiar user experience as that on Android smart phones. The easy-to-use system realizes seamless compatibility with plenty of third-party application softwares.

Rugged and Durable
C4050, built for use in harsh industrial and outdoor environments, is IP64 sealed to withstand prolonged exposure to water, dust, -10/50°C temperatures, and multiple falls on all 6 faces from 1.2 meters to cemented ground.

4G Lte Network (4G version)
Flexible connectivity options, including 4G network, dual-band Wi-Fi (2.4G+5G) and Bluetooth, ensure that users always have the best network connection and keep workers connected wherever their jobs take them to.

* C4050 (Standard version) comes with WCDMA, WiFi and Bluetooth

High-resolution & Large-size Display
With a high-definition 4-inch display and highly sensitive light sensor, C4050 automatically adjusts screen brightness according to the light intensity, presenting you the best display effect. Whether you work in dark environment or in direct sunlight, C4050 improves the display's readability and provides you with the best visibility.

Accurate Barcode Scanning
C4050 adopts state-of-the-art Zebra 1D/2D barcode scanning engine, which can even decode obscured barcodes, such as those on parcels that have been stained during the long haul and multiple transfers, with speed and accuracy, significantly reducing manual errors.

Full-band RFID Reading/Writing
C4050 supports LF, HF, UHF RFID and NFC reading. It is not only perfectly suitable for animal management using a LF RFID reader with antenna extension rod, but as equally powerful and agile for inventory checking using a UHF RFID reader with information collection capabilities.

Fingerprint Recognition
C4050 enables sensitive fingerprint recognition. Capacitive fingerprint sensor makes the collection of fingerprint information more accurate and rapid. Users can input or delete fingerprint information, process fingerprint image, and match fingerprints. It has been widely used in personnel management.

▲ Pistol ▲ Charging cradle ▲ External Antenna

High-definition Camera
Outstanding 8 mega pixel autofocus camera with flash enables you to capture high-quality images even in dark environment.

Portable Size
In compliance with ergonomic and industrial design, the light-weight C4050 is comfortable to grip and convenient to carry. It allows single-handed operations in various fields of mobility application.

Abundant Optional Accessories
There are lots of accessories for you to choose from: A/C adaptor, charging cradle, multiple extension ports, pistol grip with additional built-in battery, all to enable you to take full advantage of C4050's powerful data processing capacities.
